Definition of Staff Nurse III/IV, and Home Health/Hospice Nurse III

The Staff Nurse III/IV, HH/H III programs have been developed to offer recognition and career advancement opportunities for those nurses who have excelled in clinical practice, leadership and professionalism. The Staff Nurse III and IV, HH/H III roles are designed to enable the clinically expert Staff Nurse to find continuing recognition and rewards in the provision of direct care in his/her area of clinical specialty.

The Staff Nurse III/IV and HH/H III functions in the clinical setting as an exemplary care giver to patients, a model of proficiency for co-workers, and a colleague to physicians. From years of nursing experience and a continued expansion of clinical knowledge, the Clinical Expert (SN III & IV or HH/H III) is a skilled practitioner who demonstrates leadership by:

1. identifying, communicating and fulfilling patient needs;
2. coordinating and utilizing facility and community resources to meet patient needs;
3. promoting a multi-disciplinary approach to patient care;
4. assuming a teaching-coaching role with other nurses and health team members, and;
5. maintaining a flexible approach to resource constraints.

Through an intuitive use of knowledge, fine discretionary judgment, experience and leadership, the Clinical Expert is able to provide the best possible patient care in a safe environment.

Responsibility of Applicants

- Provide the best possible documentation of his/her clinical practice, leadership, and professionalism to the FSC ahead of or before the deadline (March 1, July 1, or November 1).
- Ask for timely assistance from a mentor or FSC members. Attend local workshops for applicants.
- Assist the FSC in making the best decision possible.
- If needed, appeal to the FSC in writing within 30 days of the original decision. If needed, appeal to the Regional Appeals Committee in writing within 30 days of the FSC appeal decision.
- Successful applicants need to become familiar with requirements to maintain their new status including renewal requirements.
- Select a Mentor from the FSC's Mentor list and ensure that the final application is signed by your Mentor.

The Role of Mentors

As an applicant for Staff IV, you must select a **mentor** to assist you in the application process. Choose a mentor from the local FSC mentor list. The Applicant-Mentor relationship is required, and, ideally, the relationship would start at least one month before the application deadline.

A mentor can be either a member of the Facility Selection Committee or a Staff Nurse III/IV, Home Health III who can offer suggestions to improve the application portfolio of staff prior to submission. Names of the Facility Selection Committee Members will be posted on the Association's bulletin board in each facility. The Local Facility Selection Committee will maintain current listing of Mentors. Ask your manager or your C.N.A. Rep for a list of SN IVs

The **role of the mentor** is to review your application portfolio for completeness before it is submitted to the committee on March 1, July 1 or November 1. Mentors also offer suggestions to improve the application portfolio prior to submission. Mentors must sign the final application to validate that all required application elements are complete

Minimum Qualifications

2. Current designation as a SN III
3. Work with Employer an average of 24 hours per week over the last year.

Hours Worked

- (A) A Registered Nurse hired into a twenty-four (24) hour position or more is exempt from any further calculation to determine paid or unpaid time away from work.
- (B) For any Registered Nurse hired into a position of less than twenty-four (24) hours, the following calculations apply:
 - Paid time is calculated by determining total paid hours for the year minus the number of vacation hours taken in week blocks.
 - This paid time is then divided by number of weeks, which is calculated by taking the fifty-two (52) weeks in a year minus the weeks of vacation blocks minus California Nurses Association option week if taken, minus approved leave of absence up to three (3) months' time.

- Paid time divided by number of applicable weeks equals paid hours per week. This number must equal twenty-four (24) hours or more in order for a nurse to meet the hours worked qualification.
- (C) For a nurse on disability (UCD) or Workers Compensation integration of the number of weeks will be subtracted from the number of total weeks. The number of sick leave hours paid during this time will be subtracted from the number of hours paid. If the nurse goes on non-paid status (no sick leave) the leave of absence cannot exceed three (3) months.
